

CITY COOL GROUP

AIR CONDITIONING & HEATING SOLUTIONS

PRODUCT
& SERVICES
GUIDE

The City Cool Group is your professional supplier for the hire and sale of portable air conditioning, heating and drying equipment as well as the installation, service, maintenance and repair of fitted air conditioning systems.

As a preferred contractor throughout the UK since 1994, London Cool and Midland Cool are your 'one stop' shop for all critical cooling, air conditioning and climate control products and services.

We pride ourselves in being able to explore each client's environment to recommend the most suitable equipment, within budget and on time.

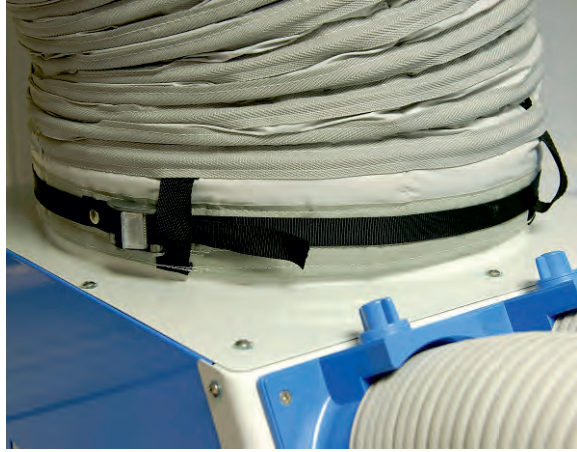

Service

Here at London Cool and Midland Cool we know the importance of excelling when it comes to the service we provide our clients and customers. The majority of projects we undertake normally have to be completed within a certain deadline which we are always proud to achieve and why our clients know they can rely on us.

We offer a same day and next day delivery service on all of our portable products and operate a 24/7 emergency breakdown telephone line so you have the peace of mind that even on a weekend or bank holiday, you always have someone to call.

Services include: Emergency breakdown call out	Portable equipment hire	Free site survey's
Repair	Delivery & Collection	Manufacturer warranty on portable and installed equipment
Service & Maintenance	Portable equipment installation	3 month warranty on ex-hire portable equipment

Equipment

We have a large portable fleet to meet all hire requirements, applications and budgets and are pleased to be working with some of the industry's leading brands such as Daikin, Fujitsu and Mitsubishi when it comes to installations of fitted air conditioning equipment.

Sector Expertise

We have been supplying all of our services, whatever the application, to varied sectors since 1994. Our free site survey's offer our clients and customers peace of mind that we can get the requirement correct from the word go, which for many, is key for providing a fast and reliable service. We have built trusting relationships with our valued clients across specific industries.

HVAC

With 23 years industry experience, we continue to support other companies within our sector by providing them with our portable services including hire, sale, delivery, collection and installation.

Film & Media

Over the years, we have continuously worked with some of the largest, corporate broadcasting and media companies providing portable air conditioning and climate control equipment to TV and film sets.

Facilities Management

We have been proud suppliers to some of the largest facilities management companies in the UK providing them with all of our services from portable hire to fixed air conditioning installations and emergency breakdown call outs.

Commercial & Retail

London Cool continue to provide some of the biggest high street retailers with our portable equipment and services. When it comes to speedy delivery, they know they can rely on us to get cooling to their stores to keep their customers cool.

Construction

When it comes to the construction industry, we have plenty of portable equipment ready to go. A lot of our clients within this sector choose us for our reliable and quick service.

Healthcare & NHS

We have grown relationships over the years with large healthcare providers and the NHS providing a range of our services from portable equipment to installed air conditioning, service and maintenance and break downs.

Portable Air Conditioning

London Cool have a reputation for having one of the largest selections of portable air conditioners for hire and purchase within the UK. Let us show you some of the modernised equipment we have available within our fleet.

Koolbreeze Climateasy 14

The Climateasy 14 is a very versatile unit offering cool and warm climate control making it the perfect item for year round usage.

Product Features

- Luxury 4 mode model suitable for large rooms and offices that require power and style,
- Automatic mode switching between heating and cooling
- As efficient as a similar power split type machine,
- Easy to install and simple to use

Specification

Cooling/Heating capacity (kW): 4.1 / 4.0
Current consumption (amps): 6.4 (cooling)
Fan speeds: 3
Noise level (dBA): 42 (min) to 52 (max)
Dimensions (HxWxD): 830x440x410mm

ICEN WPC-6000 Spot Cooler

The Weltem WPC-6000 spot cooler offers one of the most powerful spot coolers to the market delivering 7.3kW of cooling working from only a 13amp supply.

Product Features

- Designed to work with up to 15m of warm air exhaust hose
- Features a large 18L water container for extra continuous use
- Hot & cold ducts are easily extendable
- Available in a larger 9.4kW model (WPC-9000)
- Easy installation, only 13amp plug required

Specification

Cooling capacity (kW): 7.3
Current consumption (amps): 13
Fan speeds: 2
Noise level (dBA): TBC
Dimensions (HxWxD): 1300x560x730mm

ICEN WSC-6000 Split Cooler

The WSC-6000 is the ICEN built split cooler with built in auto pump and an extremely low noise.

Product Features

- Designed to work with up to 30m of cold water hose
- Features an auto pump for extra continuous use
- Low noise, due to no warm air exhaust
- Suitable for areas up to 60m²
- Includes self-diagnostic feature
- High function even in high temperature environments

Specification

Cooling capacity (kW): 6.5
Current consumption (amps): 11.9
Fan speeds: 2
Noise level (dBA): TBC
Indoor dimensions (HxWxD): 865x705x350mm
Outdoor dimensions (HxWxD): 455x665x275mm

ICEN WPH-5000 Spot Cooler with Heat Pump

The Weltem WPH-5000 spot cooler and heater is one of the first spot coolers on the UK market that includes a heat pump with the added bonus of only a 13amp power supply.

Product Features

- Designed to work with up to 15m of warm air exhaust hose
- Features a large 18L water container for extra continuous use
- Hot & cold ducts are easily extendable
- Suitable for areas up to 50m²
- Easy installation, only 13amp plug required

Specification

Cooling/Heating capacity (kW): 6.6 / 7.3
Current consumption (amps): 11.5
Fan speeds: 6
Noise level (dBA): TBC
Dimensions (HxWxD): 1239x612x768mm

Evaporative Coolers

An alternative equipment type to a portable air conditioner is an evaporative cooler which provides a cooling effect by natural evaporation in the process of increasing humidity. Some of our range you can see below, for our full range visit our website.

Prem-Air EH1616 Evaporative Cooler

This evaporative cooler model provides an effective cooling solution for large areas and is ideal for commercial environments.

Product Features

- Powerful motor and axial fan for effective cooling
- Suitable for larger areas and ideal for commercial settings
- Features a large 57L water tank
- Offers an 8000 m³/hr air flow

Specification

Air flow (m³/hr): 8000
Area coverage (m²): 100
Fan speeds: 3
Dimensions (HxWxD): 1380x400x480mm

Honeywell CO60PM Evaporative Cooler

The perfect choice to keep indoor and outdoor environments up to 80m², comfortably cool and breezy.

Product Features

- Oscillating louvres
- Weather resistant for outdoor use
- 3 side honeycomb cooling media for optimum cooling
- 60L water tank capacity
- Continuous water supply connection

Specification

Air flow (m³/hr): 2610
Area coverage (m²): 80
Fan speeds: 3
Dimensions (HxWxD): 1017x700x466mm

Portable Fans & Air Movers

Our large selection of fans and air movers range from desk fans to large industrial fans and are mostly available for hire and sale. All fans provide instant, controllable air movement wherever you need it. See some of our range below.

Desk Fan

Product Features

- Wide angle oscillation
- Adjustable fan head
- Push button controls
- 2 fan speed settings

Specification

Fan speeds: 2
Diameter: 9" (23cm)
Dimensions (HxWxD): 385x275x220mm

HV Fan

Product Features

- High speed motor
- Adjustable tilt head
- Stylish chrome finish
- 3 fan speed settings

Specification

Fan speeds: 3
Diameter: 18" (45cm)
Dimensions (HxWxD): 1300x505x505mm

Industrial Warehouse Drum Fan

Product Features

- Tilt action
- Full portable
- On wheels

Specification

Air flow (m3/hr): 22,800
Diameter: 36" (90cm)
Dimensions (HxWxD): 1150x930x840mm

*other models available, please visit our website.

Pedestal Fan

Product Features

- Adjustable height and fan
- Easy to assemble
- Robust construction
- 3 fan speed settings

Specification

Fan speeds: 3
Dimensions (HxWxD): 1300x510x510mm

Portable Dehumidifiers

The only real answer to controlling condensation and damp atmospheres, dehumidifiers remove moisture which would otherwise be trapped in the air and condense on cold surfaces. We have a large range available for hire and sale.

Woods ED36 Commercial Dehumidifier

Product Features

- Automatic defrost timer
- Adjustable automatic humidistat
- Reservoir warning light
- Automatic shut-off float for overflow protection

Specification

Water tank capacity (L): 10.4

Dimensions (HxWxD): 530x340x425mm

Dantherm CDT50 50L Dehumidifier

Product Features

- Low energy, high performance
- Automatic defrosting in low temperatures
- Ease of handling and transportation
- With tank (auto cut off) or continuous drain

Specification

Water tank capacity (L): 12.5

Dimensions (HxWxD): 1020x700x470mm

KDD170L Sahara Dehumidifier

Product Features

- 170L heavy duty dehumidifier
- Operates in 230v or 110v
- Fitted with automatic pump
- Operates from standard 13amp plug

Specification

Water tank capacity (L): n/a - fitted with pump

Dimensions (HxWxD): 999x571x599mm

Portable Heaters

We provide a wide range of portable heaters for hire and sale and can offer various solutions for different applications.

HKL2000 Fan Heater

Product Features

- 2 heat settings
- Thermostat and pilot light
- Adjustable control
- Fan only mode

Specification

Heating capacity (kW): 2.0
Dimensions (HxWxD): 300x210x190mm

Micathermic Radiator

Product Features

- Enhanced efficiency
- Anti-frost protection
- Safe heating element
- Adjustable thermostat

Specification

Heating capacity (kW): 2.5
Dimensions (HxWxD): 710x644x120mm

Oil Filled Radiator

Product Features

- Castors for portability
- Adjustable thermostat
- 24 hour timer
- Carry handle and cord storage

Specification

Heating capacity (kW): 2.5
Dimensions (HxWxD): 650x450x250mm

FF3 Fan Heater

Product Features

- Ductable fan heater
- Industrial design
- Quiet in operation
- Lightweight

Specification

Heating capacity (kW): 3.0
Dimensions (HxWxD): 360x300x330mm

FEH150 Fan Heater

Product Features

- Adjustable thermostat
- Insulated handle
- Available in 22.0kW model
- 3 phase power, 32amp

Specification

Heating capacity (kW): 15.0
Dimensions (HxWxD): 540x400x330mm

C30 Fan Heater

Product Features

- Stainless steel element
- Adjustable thermostat
- Overheat protection
- 3 phase power, 63amp

Specification

Heating capacity (kW): 30.0
Dimensions (HxWxD): 860x570x650mm

Patio Heaters

We specialise in the hire and sale of patio heaters nationwide and have various solutions for different applications and have one of the largest selections of patio heaters available with more available on our website.

Standard Commercial Patio Heater

Product Features

- Completely self contained
- Rain protected
- Wind resistant
- 12 to 15ft range
- Runs using propane gas

Specification

Heating capacity (kW): 12.5

Dimensions (HxWxD): 2300x600x600mm

Santorini Flame Patio Heater

Product Features

- Adjustable heat settings
- Pyrex glass
- Retractable design
- 10ft range
- Runs using propane gas

Specification

Heating capacity (kW): 11.0

Dimensions (HxWxD): 1770x525x525mm

KDD 170L Sahara Dehumidifier

Product Features

- IP34 Rated
- 3 independent heating elements
- 3.5m cable
- Tip over safety cut off
- Cable storage compartment

Specification

Heating capacity (kW): 2.7

Dimensions (HxWxD): 1680x420x390mm

Air Conditioning Installation

The City Cool Group offer a nationwide service for installation of both portable air conditioning equipment and fixed air conditioning systems. We offer free site survey's in order to determine the most suitable solution for your application.

Committed to providing the complete package, we can de-install, supply, install and commission all air conditioning systems from the smallest console unit to the largest VRV/VRF system.

With branches in the South East and the Midlands, we can proudly offer a nationwide service which includes areas such as London, Surrey, Sussex and Birmingham.

Our wide range of air conditioning systems available for installation are offered by some of the industries top manufacturers including Daikin, Fujitsu, Mitsubishi Heavy Industries to name a few. They supply you with a range of comfort cooling and heating systems to suit your needs perfectly to be able to provide you with an environment that can maintain a comfortable temperature, all year round, whatever your budget.

Commercial installed air conditioning systems are adaptable and flexible enough to meet the demands of all sectors which includes retail, offices, hotels, hospitals and many more.

Our team are trained to be able to discuss your requirements and carry out survey's to determine which type of air conditioning system is most suited to your needs. Our technicians are all F-gas qualified and kept up to date with the industry's standard training which enables them to be able to carry out their work to the maximum standard.

Manufacturer Parts Warranty

As a recognised installer, we can proudly offer extended warranty with specific manufacturers should you choose to have your air conditioning installed by London Cool or Midland Cool. To find out more, please get in touch.

Wall or floor mounted systems

Wall mounted or floor mounted air conditioning systems are ideal for retail, restaurant, office and residential use. They can be mounted at the desired level from floor to ceiling and are available in cooling capacities ranging from 2.0kW to 11.0kW. All are available with heat mode as a standard option.

Ceiling recessed cassette systems (available in a compact model with some manufacturers)

The ceiling recessed cassette are perfect for setting into a suspended ceiling. The space saving design works well in offices, shops and commercial premises. They are ultra-quiet in use and are available in cooling capacities ranging from 2.0kW to 15.0kW. The wall mounted controller that comes with this type of system includes heat mode as a standard option.

Ceiling suspended systems

Available in two different styles, you have the option for a 'one-way blow' or a 'four-way blow' on the ceiling suspended air conditioning systems and range from 2.0kW to 15.0kW. This style of air conditioning unit is very quiet in operation and can be mounted directly onto the ceiling or suspended from it at a desired height. Cool or heat mode can be controlled by either keypad remote controls or wall mounted control panels.

Ducted systems

Ducted air conditioning systems are often the most practical choice for large areas where air distribution becomes beyond the reach of a normal 'split type' air conditioning unit. The grilles can be placed virtually anywhere you wish and will blend unobtrusively with any interior decor.

Air Conditioning Service & Maintenance, Breakdown & Repairs

London Cool & Midland Cool specialise in the service & maintenance, emergency breakdown call outs and repairs on all split type and VRV/VRF air conditioning systems, offering a nationwide service to all industries and sectors.

Service & Maintenance Agreements or Contracts

If you already have your air conditioning installed, or are in the process of having an installation, now is the time to think about the routine maintenance in order to prolong the efficiency and maximise the performance of your system(s) but also to avoid costly damage which can arise through lack of preventative maintenance.

Service and maintenance agreements/contracts are also required in order to comply with the manufacturer's extended parts warranties and should be in place within 3 months of final commissioning following installation.

We are able to provide tailor made routine service agreements to suit your needs.

Air Conditioning Breakdown

Here at the London Cool Group, we are fully aware that air conditioning can be vital to businesses, that said, it is vital to a wide variety of our customers.

Faults and breakdowns can massively disturb the atmosphere of any workplace as well as causing effects on the financial side of any business should leading equipment breakdown with the requirement of immediate repair.

Breakdowns, unfortunately cannot always be rectified at the point of the call out as parts may be required. However, with the facility of back-up portable equipment, we can ensure that you are always covered should something critical like this happen.

Air Conditioning Repairs

We pride ourselves on our understanding as to how important it is to our clients to be able to arrive at their premises in the quickest, most sufficient time possible to repair their air conditioning equipment before any major financial impact kicks in.

Air conditioning nowadays is extremely reliable but, as with all mechanical equipment, breakdowns do occur however well maintained the equipment may be. When this happens it is good to know you have a reliable supplier readily available.

We offer a breakdown/repair service to all air conditioning systems which may have ceased working, through to air conditioning systems which are just throwing out a bad odour when switched on.

Should your equipment fall into that unfortunate category of being unable to be repaired on the same day, we can arrange for portable equipment to be supplied in the interim.
